TRADING RANGE

4H TRADING RANGE HIGH
15M MS
BOS
4H TF - LAST BREAK - UPSIDE
* Here we need to get the trading range high and for that we need to wait for a momentum shift downwards in 15 minutes.
TRADING RANGE
STRONG LOW + TRADING RANGE LOW
Last break was upward, we got the low of the trading range

4H TF
LAST BREAK - UPSIDE
* Here we need to get the trading range high and for that we need to wait for a momentum shift downwards in 15 minutes.
BOS
STRONG LOW + TRADING RANGE LOW
Last break was upward, we got the low of the trading range

HOW TO FIX TRADING RANGE

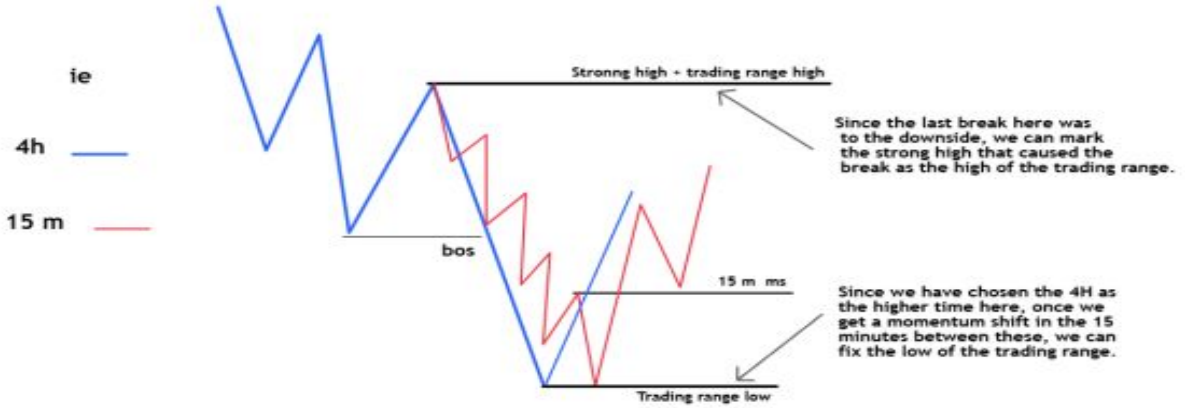

1 Choose any of the higher time frame to find tradding range

1MONTH

1WEEK

1DAY

4H

TRAINING RANGE

- Trading range refers to the difference between the highest and lowest price of a security within a specific timeframe, and potential trading opportunities.
